

Superior Pallets, Inc.

Superior Pallets is a trusted and respected member of the pallet industry.

Superior Pallets has earned its reputation through a stringent commitment to safety, quality, integrity, service, and honesty.

We're here because of our customers and we thank you for your business. If you haven't worked with us recently, give us a try -- you'll see we have a fresh perspective and a positive outlook.

We look forward to understanding your needs and building a lasting relationship.

We're moving forward by partnering with our customers to add value, lower costs and provide better service. You'll find us energetic, efficient and more competitive than ever.

Technology at Work for You

SUPERIOR CONTINUES TO MAKE AN INVESTMENT IN TECHNOLOGY TO SERVE YOU BETTER

We've upgraded our production by installing an automated sort and repair line with bar code tracking.

We have also begun using Click-Draw pallet design software and Customer Relationship

Management Software to provide you with better service.

- LANDSCAPING MULCH
- PLAYGROUND SAFETY MATERIAL

Wood Pallets, The True Green Choice

According to Modern Materials Handling, 73% of pallets are recycled and are the most recycled products in the U.S.

Comparatively aluminum cans are recycled at a rate of 66.5%, paper at 50% and plastic 20%.

At Superior Pallets, not a single wood component is sent to a landfill.

Pallets that we are unable to repair are broken down into individual components to be reused for repairing pallets or constructing new pallets made from used material.

Pallets or wood components without any further use are ground into mulch products.

Fleet Operations

Superior Pallets owns over 90 trailers that we use to move pallets to and from our customers. We proudly mark our equipment with decals for easy identification.

If you use a high volume of pallets, we have the ability to drop a trailer at your facility for you to unload or reload at your leisure.

Mulch Products

We are pleased to provide colored mulch made from a non-toxic Colorbiotics dye. Our mulch is also certified for use as playground safety surface material.

Corrugate Recycling Services

Are you currently paying to dispose of your waste corrugate? Superior Pallets recycles corrugate as a service to its customers at little or no cost, compared to waste disposal companies.

Plastic Recycling Services

Are you currently paying to dispose of your waste plastic bags and shrink wrap? Superior Pallets recycles plastic bags and shrink wrap at little or no cost, compared to waste disposal companies.

CUSTOM SOLUTIONS

At Superior Pallets we realize that one size does not fit all. We will design a custom solution to fit your operation, not force you to take a standard size.

By using our Click-Draw pallet design software, you can rest assured that we will quote you an accurate price and ship pallets that are built to your specifications.
